## Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, Oct. 11.—Regardless of the approaching holiday, which ordinarily begets caution and resultant covering of long contracts, trading in stocks today was attended by unusual activity and many substantial gains. Speculative interest continued to center in special issues foremost among which were the shippings, oils, motors and the better known equipments, including many war shares recently under severe pressure. Later the buying encompassed coppers, to baccos, food shares and utilities, prominent among the latter being the gas and express company stocks.

Bears attempted to drive against the market at midday, with United States Steel as their chief objective. That stock rallied easily, however, on a sweeping upward movement in rails which registered numerous gross advances of 2 to almost 5 points.

Marine preferred yielded all but a point of its 3% advance and Texas Company and Mexican Petroleum forfeited much of their 3 to 4 point gains. Sales amounted to \$40,000 shares.

Irregular movements again characterized quotations for some of the allied exchanges as well as remittances to neutral centers, Dutch rails showing further losses.

Bonds were strong in the main, with an extension of dealings in liberty issues. Total sales, par value, aggregated \$10,550,000. United States olds 4s declined 1/4 per cent on call.

## BRADSTREET'S REPORT.

NEW YORK, Oct. 11.—Bradstreet's tomorrow will say:

Cumulatively favorable war news has stimulated the bond market, raised the levels of peace stocks, and begotten false peace sentiment, against which the president has issued a caution. Peace talk, too, has had some effect on trade, which reflects some hesitation, and the pace of industry slackened, but some responsibility for this is credited to the country with epidemic of influenza which has hampered industry, resulted in the promulgation of health regulations, the closing of some theaters and schools, and finally in restricted buying by the ultimate consumer. The Liberty loan campaign also has diverted attention from trading, and pleas for peace emanating from the central European belligerents have brought on a more cautious attitude among buyers.

Weekly bank clearings, \$6,429,707,000.

## CLEARING HOUSE CONDITION.

NEW YORK, Oct. 11.—The actual condition of clearing house banks and trust companies for the week (five days) shows that they held \$51,564,750 reserve in excess of legal requirements. This is an increase of \$14,860,740 from last week.

## METAL MARKET.

NEW YORK, Oct. 11.—Metals unchanged.

## COTTON MARKET.

NEW YORK, Oct. 11.—Cotton closed steady at a net gain of 17 to 10 points.

## GRAIN MARKET.

CHICAGO, Oct. 11.—General evening-up of trades so as to be prepared for any surprise during the double holiday ahead tended to bring about advances today in the corn market. Prices closed firm 1 to 2 1/2c net higher, with November 11 1/2c to 11 3/4c and December 11 1/2c to 11 3/4c. Oats finished 1/2c off to 3/4c up, and provisions varying from 17 cents decline to a rise of 40 cents.

Word that the German answer to President Wilson's note would be deferred until after a conference of the sovereigns of the German federated states was an important factor in curtailing the selling pressure which had been forcing down the value of corn.

Buying, however, appeared to be restricted largely to shorts who wished to collect profits and to avoid the risks that would be involved if covering were delayed until Monday. It was evident, too, that the recent selling had been so heavy on the part of both holders and speculators that many operators feared to take the bear side further at present. Although offer-

ings increased on bulges, the downturns which ensued were not of a radical sort.

Oats averaged higher for the same reason as corn.

Lard and ribs advanced sharply notwithstanding that buying was scattered. Pork continued minus of support.
